MISS FAY LEE,

President of the Shakespearean Club, Kansas City.

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 608 1/2 North Seventh Street, Kansas City, Kansas, was coming to when she rescued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman again, as it has made a million other women strong and healthy. By inducing regular menstruation the entire system is relieved of the terrible wasting drains. The ligaments which hold the womb in place are strengthened by a healthy flow and that organ is returned to its normal position. Returning health is the result. This is what Wine of Cardui has done for thousands of the best women in America.

If you need advice write The Ladies' Advisory Department, The Chattanooga Medicine Company, Chattanooga, Tenn., describing all your symptoms freely, and a letter of advice will be sent you. Secure a \$1.00 bottle of Wine of Cardui from your druggist to-day.

WINE of CARDUI A million suffering women have found relief in Wine of Cardui.

SAD END OF ROMANCE IS NOT APPENDICITIS

Young Lovers Principals in a Most Tragic Affair.

DEVOTION AND DEATH

Former sweetheart of the Young Man Appeared Upon the Scene and Claimed That She Was Engaged to Him.

Scranton, Pa., June 22.—A pair of young lovers, Ernest Schmic and Miss Jenny Brannon, both of Greenwood, were the participants in a double tragedy Sunday evening which has resulted in the former's death, and which will probably also prove fatal in the case of the girl. The two had loved each other devotedly for several months, but another woman from Schmic's old home intervened a week ago and sought to hold him to an alleged engagement with her. This led the pair to seek relief in death, and they apparently planned the affair with much deliberation. Miss Brannon purchased a bottle of carbolic acid Sunday morning and shortly after, both started out for a walk. They strayed to a secluded spot in the midst of a forest and spent the entire afternoon sitting side by side on a rock. They were seen by several other ramblers in the woods, and this led to the search by the girl's cousin, Thomas Cavanaugh, and several of his friends. When they party came in sight of the place Miss Brannon put the bottle to her lips and drained it. As she did so, Schmic started to run, with several of the party close on his heels. He drew a revolver and fired upon them three times, and then, stopping, turned the weapon to his heart and shot himself twice. He fell dead. The girl suffered great agony, and her physicians hold out scant hope for her recovery.

BROKE ENGAGEMENT.

This Action Caused Elmer Heath to Take Life of Katie Adams.

Laurel, Md., June 22.—Miss Katie Atkins was shot and instantly killed in her home in Salisbury, Md., by Elmer Heath, her lover. After killing the young woman Heath fired three bullets into his head and fell unconscious. He was hurried in an ambulance to jail to prevent a lynching. He may recover. Both re under twenty-one years old, and were to have been married last Thursday, but Miss Atkins broke the engagement.

SIX WERE KILLED.

Terrific Explosion of Dynamite, That Was Caused by Lightning.

Cambridge, O., June 22.—A house in which was stored 3000 pounds of dynamite at the new mines at Senecaville, twelve miles from here, exploded and killed six men and injured a score of others, besides ruining the mine shaft. The dynamite demolished the building and scattered men within a radius of 700 feet.

Fatal to Three.

Blossburg, N. M., June 22.—By an explosion that wrecked mine No. 3 of the Raton Coal and Coke company five men were killed and two injured.

THE PICKET FIRST.

He Wins the American Derby Event at Chicago, and Breaks All Records.

Chicago, June 22.—The Picket, a horse that never before was first, won in the presence of 70,000 people, the American Derby Saturday afternoon. He ran the one and one-half miles in 2:33, breaking all records, and was six lengths ahead of Claude, the second. The race was worth \$32,275 gross value, the richest in racing annals with one exception. More money is said to have been bet on this race than any other event ever run in America. Nineteen horses went to the post, the largest previous number being fifteen. Neither The Picket's owners saw the race. Karl Jungbluth is on a visit to Asia, and John Middleton heard the report at Louisville, Ky.

Wife's Terrible Confession.

Pomeroy, Wash., June 22.—Amanda De Lartigue has confessed that she killed her husband on the night of September 23, 1902, with an axe and buried the remains in the front yard of their farm, near where they were found recently. The woman asserts that De Lartigue threatened her life; that he pursued her into the yard shooting at her and when she seized an axe and sank it into his head. She buried the body at night. Mrs. De Lartigue was twenty years older than her husband.

Death of Major Pond.

New York, June 22.—Major J. B. Pond, the well known manager of lecturers and singers, died at his home in Jersey City, as the result of an operation on June 17, in which his right leg was amputated.

Club and Business Man.

New York, June 22.—Daniel Judson Holden, a member of the law firm of Curtis Bros., is dead. Mr. Holden was a member of many of the leading clubs and an official of several large southwestern development companies.

Mrs. Cora Snyceers Death Not Due to That Malady.

INFANT IS ALSO DEAD

Funeral Services Were Held, but the Body Was Not Interred, and it Will Be Held Pending an Official Investigation.

New York, June 22.—Telephone messages sent by Coroner Scholer of this city to Passaic have prevented the interment of the body of Mrs. Cora Snyder, a music teacher, and set the New Jersey town in an uproar. Mrs. Snyder for the last year had lived at the home of a prominent politician, where she was housekeeper and governess of the politician's daughter. Her death occurred last Friday at the apartments of a midwife in this city. Her child also died. Until the interrupted funeral it was supposed in Passaic that appendicitis was the cause of Mrs. Snyder's death.

On receipt of Dr. Scholer's telephone message the Passaic authorities took immediate action. County Physician McBride ordered the local undertaker who had charge of the funeral to stop the proceedings. In order to prevent a sensation Dr. McBride decided to allow the funeral to take place and to prevent only the interment. The funeral was held as had been planned. A large number of the woman's friends followed her body to the cemetery, where the burial service was read. Instead of placing the casket in the grave, it was announced that it would be kept temporarily in a vault, owing to the water in the grave. The mourners departed, without suspicion of the state of affairs. As soon as the last of the carriages had disappeared the undertaker took the body out of the vault and it was taken back to his mortuary.

Pending the result of an autopsy the authorities have taken no official action.

LOOT CHARGES.

Matter Has Been Revived and an investigation May Result.

Manila, June 22.—Charges that American officers looted public buildings in Manila after the surrender of the city in 1898 have been revived and may possibly lead to a formal investigation. Recently authorities endeavored to locate certain pictures and art objects belonging to the municipal museum, and inquiry showed they had been given to a Filipino to take care of. Filipinos offer to prove that some officers received the pictures, and it is claimed that a former staff officer abstracted a silver service from the Malacan palace. The government may ask the war department to investigate the matter.

Governor Taft has returned here from Benguet. His health is completely restored.

BROKE HER NECK.

Miss Kate Murray Fatally Jumps from an Electric Car at El Paso.

El Paso, June 22.—Miss Kate Murray, formerly of Colorado City, Tex., jumped from a street car of a suburban line Sunday while panic-stricken and broke her neck. The girl was twenty years of age. The trolley met with an accident and the electric wires were emitting sparks, causing much fright to the passengers. The girl jumped while the car was going at full speed.

Attempt to Wreck a Train.

Austin, June 22.—A dastardly attempt was made to wreck a Houston and Texas Central passenger train on the Llano branch four miles from here. Several hundred rocks were placed on the track.

Storm in Travis County.

Austin, June 22.—Severe electrical storm destroyed much corn in Travis county. A window in the fifth story of the state house was blown out.

Fourteen Badly Burned.

Tamaqua, Pa., June 22.—By an explosion of gas in No. 4 mine fourteen men were so badly burned that it is thought six of them will die. Daniel Lewis, a miner, succumbed to his injuries. Two English-speaking miners and three foreigners are in a critical condition. The explosion, it is believed, was due to a defective safety lamp.

Looking For a Criminal.

New York, June 22.—The police authorities of New Rochelle have ransacked every house in the Italian quarter in an endeavor to locate the murderer of Special Policeman Ahern, who was killed early Saturday morning by a man believed to have been a burglar. Their efforts were unsuccessful.

Passed a Quiet Day.

Lexington, June 22.—Curtis Jett and Thomas White of Jackson, Ky., spent a quiet day Sunday in jail here. They were not accessible to visitors and the usual religious services were dispensed with on account of the crowds of curious people, who would have taken advantage of the service to gain admission. The two men were allowed a pint of whisky and had their meals sent from a restaurant.

Parks & Waldrop,

MEN'S OUTFITTERS.

Time for Everybody to Join in and Help Make it a Success.

Hardly two months remain in which to get ready for the third annual Central Texas Fair, to be held in Bryan August 18th to 21st inclusive, and it is time for everybody who is interested in the movement or in the welfare of the town and county to join in with those who have the active management and help make it as great a success as possible. That the fair has been of great benefit to the town and county is not questioned by those who have taken the trouble to consider the matter a little. The improvement already noticeable in live stock alone will amply repay the labor and pains that have been expended on the enterprise. In addition to this it has greatly stimulated interest in the diversification of crops; and having secured the hearty and active co-operation of the Brazos county farmers institute, it will be able to accomplish much more along this line in the future. It is also a fine advertisement for Bryan and this section of the state, and is a means of getting the resources of our country prominently before the people of the state through the press and through visitors who come here and go abroad and tell what they have seen and what we are doing along legitimate lines to develop the country and attract desirable immigration.

It matters not whether you are a stockholder or not, if you live in the town or country and get your living among these people in any way whatsoever, it is to your interest to build up the fair and to speak a good word for it whenever you have an opportunity. The merchant and clerk in the store, the professional man in his office, the man on the street or train, or almost anywhere can find opportunity to help the fair along by keeping it in mind and saying a word about it.

Another way to help the fair along is by making exhibits and inducing others to do so. The friendly rivalry thus engendered is what stimulates improvement in stock and in the products of the farm, orchard and garden.

The eyes of the people of this section are fixed upon Bryan at this time and they are waiting to see whether we will go forward and continue to lead or lag behind and disqualify ourselves for leadership. Any lack of interest or activity in this fair movement will be counted against us as an index of waning enterprise and loss of vantage ground.

The fair is well equipped in the matter of grounds and buildings and such heavy expenditures as were required last year are not now necessary. The directors are at work through the various committees in making preparations, and they ask the hearty support of the people of the town and county in the work. The catalogue to be issued in a few days, contains an attractive premium list and will be given a more careful and systematic distribution than ever before. It will be put into the hands of people who are alive to their own interests and to the interest of their communities and recognize in the fair opportunities for advancement.

The fair is not designed as a money making enterprise. Its purpose is not to declare direct dividends; but rather to help insure to every man the greater dividends of improved conditions and more general prosperity.

171 Myers, Hot Kutter.

Hot Kutter has raised a racket in a Racket store (used to be a dry goods store.) Truth hurts; they must confine themselves to legitimate hardware business. If they do this I have no fight to make but when a so-called reputable dry goods house goes and buys a trashy lot of stuff and brings it down here and uses a staple article, fruit jars, as decoy ducks, to sell it at a profit, they may look out for a fight. I am fully prepared to maintain my reputation. Now examine goods of all kinds, tinware, graniteware before you buy. You will open your eyes.
171 Myers, Hot Kutter.

Rev. J. L. Meads of Chester, Ill., will begin revival services at the Free Baptist church tonight and all are cordially invited to attend. A tent will be secured and put up in the center of the town so that every body can be comfortably accommodated.

For hack service at all hours day or night call at Exchange barber shop or phone No. 301. Good teams, new carriage, prompt and courteous attention. Meet all trains. Ed Talley proprietor.

POPE PRESENT.

His Voice Plainly Heard as He Recited a Prayer at the Consistory.

Rome, June 22.—The consistory was specially important owing to persistent rumors regarding the pope's ill health and previous postponements. Naturally the ceremony, in which the pope, half hidden in his vestments, was borne in his chair and continually assisted, is not the best opportunity to judge the appearance or state of his health, but men capable of undergoing the strain of such a function have plenty of vitality. The pontiff's features seemed slightly more clearcut and his hands trembled perceptibly, but his voice was plainly heard, though it has lost something of its power. The ceremony was shortened as much as possible and only lasted about thirty-five minutes. All cardinals of Italy were invited to the Vatican half an hour before the pope's appearance and they assembled in the consistory hall in the order of precedence, forming a striking picture. The appearance of the pope, clad in white vestments and carried by trusted companions in their red robes, gave a finishing touch to the scene. After receiving the homage of those present the pontiff recited a prayer and then proceeded to the nomination of new cardinals.

The traditional secrecy was maintained, though now it is largely a matter of form. The pope proposed each new cardinal. Following were the cardinals: Mgr. Fischer, archbishop of Cologne; Mgr. Talliana, papal nuncio at Vienna; Mgr. Cavicchioli, secretary of the congregation of the council; Mgr. Ajuti, papal nuncio at Lisbon. Mgr. Mocella, secretary of the consistorial congregation; Mgr. Katschthaler, archbishop of Salzburg, Austria; Most Rev. Herroy Espinosa, archbishop of Valencia.

Afterward the pope announced the nomination of several archbishops who had been appointed by brief. The pontiff appointed Cardinal Agliardi, who had been replaced as prefect of economy of the propaganda, to be vice chancellor of Chiesa Della Volpe.

At the conclusion of the consistory the pope went to the throne room, where, surrounded by cardinals and the papal choir, he received the homage of the new ecclesiastics, archbishops and bishops. Ancient ceremonies were observed, each prelate kissing the pontiff's foot and receiving the apostolic benediction.

In the meanwhile the masters of ceremonies, accompanied by church dignitaries, proceeded to the residence of Mgrs. Fischer, Cavicchioli and Nocella, announced their appointments and informed them of the public consistory to be held on Thursday. Specially selected members of the noble guard will be sent to officially convey the news to the appointees who are abroad.

JAPANESE FARMERS.

One Hundred of Them Will Raise Rice Near Del Rio, Tex.

New Orleans, June 22.—As a result of his experiment in rice farming near Del Rio, Tex., with a colony of four Japanese, W. Isomoto, Japanese expert, has decided to return home and organize a colony of 100 farmers to settle on lands in the rice belt of Texas along the line of the Southern Pacific railroad. Mr. Isomoto says the experimental farming he has been doing has been so successful that it is his belief that within a few years rice lands of Louisiana and Texas will be filled by native Japanese rice farmers.

STARVING TO DEATH.

It is Also Charged That Human Flesh Is Daily Offered For Sale.

Pekin, June 22.—The famine in Kwang Si is growing worse by degrees. The starving population is estimated at 200,000. Deaths daily occur from starvation. British authorities at Hongkong, aided by public subscription, have been sending aid for two months. A Japanese report says cannibalism is being practiced and human flesh publicly offered for sale.

Seeking Heirs and Bride.

New York, June 22.—A Newark, N. J., man is seeking residents of New Jersey who, he says, are heirs under a peculiar will made by a James Rushnell, who died in California about four months ago, leaving a large estate. Besides a bequest of \$1000 or \$2000 to a number of persons, it is stated that Rushnell left \$400,000 to his son, provided he shall marry a New Jersey girl. None of the alleged heirs, nor the desired bride, have been found yet.

Well Under Way.

Austin, Tex., June 22.—The University of Texas summer schools are now well under way, and faculty and students are working faithfully. An unusually mature and earnest body of teachers are in attendance upon the normal and the university summer school, most of them not merely desiring to obtain teachers' certificates, but striving for a higher standard of scholarship in lines of advanced work. Up to date there have been 265 students matriculated, which is a larger attendance than that of last year. It is confidently expected that the number will reach 275 in the next few days.

Slow Progress in Counting.

New York, June 22.—Slow progress has been made in the counting of ballots cast for officers of the House of Representatives and another day is likely to pass before it can be known with certainty what was the result in the case of Samuel Parks, the walking delegate and candidate for re-election, who is under indictment on the charge of extorting money from employers in consideration of calling strikes off. As the count stands thus far, however, there is little doubt of Parks' re-election.

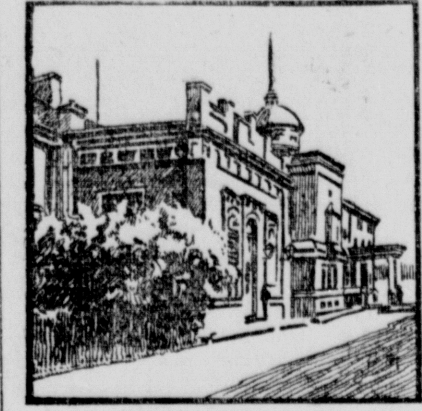

John Turney insisted on seeing Miss Mary McEntree to her carriage at Monticomb, N. J. She resented his familiarity by knocking him down with the handle of her whip.

PREPARING FOR PETER.

Free Wine and Beer Are to Be Provided and Rejoicing Expected.

Belgrade, June 22.—The position of the ministry is becoming daily more unenviable in consequence of Russian and Austrian demands for the punishment of assassins of King Alexander and Queen Draga. The terms of the Russian note almost caused a panic among the ministers, who are anxiously awaiting the arrival of King Peter to extricate them from their dilemma. The war minister is a paramount power in the ministry, as he is backed by the entire army, and he threatens severe retribution in case any hint by a member of the cabinet is made for the punishment of the conspirators.

Promotions of officers sent from Geneva are variously explained as either intended as an open defiance or as being the result of alarm caused by the

attitude of the army.

Foreign representatives who have not been instructed are asking their respective governments what attitude they shall assume at the reception of King Peter. The Russian minister is in a quandary. He had resumed relations with the provisional government. The czar telegraphed his recognition of King Peter, but the minister will take the subsequent publication of Russia's demand for punishment as indicating that Russia will possibly order the suspension of relations with the Serbian government until the murderers are punished. Meanwhile preparations for the reception of King Peter continue. A public holiday has been proclaimed. Provisional deputations are coming to Belgrade. Free wine and beer is to be provided by the government and the town is to be given up to rejoicing.

SCORE BRUISED.

Fuses Burning Out on a Car Causes Hurried Exit of Passengers.

New York, June 22.—Three persons have been severely hurt and a score were cut and bruised in a panic aboard an Amsterdam avenue trolley car. The fuses in the controller box blew out and jets of fire frightened those sitting nearby almost out of their wits. A woman leaped off and struck head first against an iron pillar. She was badly hurt. Her husband jumped with their little girl and also was badly cut. The child was uninjured. Another man broke one of his legs. By this time the excitement aboard the crowded car had become intense. Several women fainted and their fellow passengers trampled them underfoot in the rush for the exits.

TWO KILLED.

One of Them, Anton Roman, Founded the Overland Monthly.

San Francisco, June 22.—A serious disaster occurred on the North Shore railroad in which two persons were killed and a score more or less severely hurt. The dead: Anton Roman, founder of the Overland Monthly; M. M. Kirk of San Francisco. Seriously injured: Thomas Donneau, ex-county clerk of Marin county; James Tunstead, sheriff of Marin county. All of the victims were returning from the funeral of Warren Dutton, president of the State Dairymen's association and president of the Bank of Marin County, at Tamalpais.

WAITRESSES' DEATH.

Carbolic Acid Destroyed Her Eyes and She Was Also Choked.

New York, June 22.—Detectives are investigating the death of Gretchen Otten, a waitress, which was at first supposed to have been a case of suicide by carbolic acid. Examination, however, showed that the girl had not drunk the acid, but that the fluid had destroyed her eyes and scarred her face, and that she had been severely choked. A young man who is said to have been the father of a child to which the girl gave birth a year ago is being sought for in the hope that he may throw some light upon the affair.

Decatur, Tex., June 22.—One of the large storage oil tanks of the Lillard Milling company of this place sprung a leak and lost about seventy-five barrels of fuel oil, which collected on the water in the branch east of town and made quite a fire when burning.
